-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### DETAILED ACTION

Applicant's amendment to 10/015,209 has been examined. Claims 1-20 are amended.

Claims 1-20 are pending.

1. Applicant's amendment is persuasive in part. However, the existing claim objections/informalities preclude allowance of the instant application.

#### ***Drawings***

2. The drawings are objected to because in Figure 4, *Execution* is misspelled. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### 3. INFORMATION ON HOW TO EFFECT DRAWING CHANGES

#### **Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

#### **Annotated Drawing Sheets**

Art Unit: 2825

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### ***Claim Objections***

4. Claims 1-20 are objected to because of the following informalities: Pursuant to claims 1, 2, 15 and 16, it is unclear what "a target semiconductor integrated circuit of said semiconductor integrated circuit" means or references. Although this phrase is used in the specification, the meaning of this phrase remains unclear not only in claim 1 but in all claim instances. Pursuant to claim 2, at line 3, *semiconductor* is misspelled; at line 7, before "target", delete the article "a". Pursuant to claim 16, at line 3, *semiconductor* is misspelled; in step (c), after "such that", insert ---said---. Pursuant to claim 17 (which depends from claim 15, change (d) to - (c)- - Pursuant to claim 18 (which depends from claim 16), change (e) to -(d)--. Pursuant to claim 19, at line 2, after "inspection", delete the comma. Appropriate correction is required.

5. Claims 1-20 are objected to: The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Although the claim language of claims 1-20 should merit a rejection under 35 U.S.C. 112, second paragraph, in this application, Examiner has alternatively interpreted the claims to the best extent possible based on the specification and via these claim objections provided Applicants with the opportunity to appropriately revise and clarify the claim language and phraseology.

***Response to Remarks***

6. Applicant's drawing correction, although approved, remains objected to because of failure to conform with the current Patent and Trademark office procedure for drawing corrections.

***Allowable Subject Matter***

7. The claims contain allowable subject matter. A statement providing reasons for the indication of allowable subject matter follows: The prior art does not teach a model development history database in which an ID data of the circuit design unit corresponds to the number of inspection failures of the inspection item by the circuit design unit.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
